Birdwood Nursery Lock-down (in the building) Procedure

1. Procedure Statement

We recognise the potentially serious risks to children, staff and visitors in emergency or harmful situations. A lock-down may take place where there is a perceived risk of threat to the setting, and we will be advised to stay in the building rather than evacuate. Lock-down of a building/group of buildings is intended to secure and protect occupants in the proximity of an immediate threat. By controlling movement in an area, emergency services can contain and handle the situation more effectively.

Where possible, the setting will act to ensure the safety of all personnel in the setting in the following situations:

- if unauthorised person(s) considered dangerous are on setting grounds;
- in instances including domestic parties are attempting to abduct children;
- in instances where staff, students or volunteers from within the setting become a threat to the well-being of others;
- in emergency situations there is potential risk from spills and poisonous fumes from within the setting.

As soon as the emergency services arrive at the scene staff comply with their instructions.

Please see process flow chart, below, in the event of a lock-down.
